

Haze Advisory

24-hour PSI Readings: Below 100

Due to the current haze condition, we recommend that guests minimize vigorous outdoor activities, especially for those who have respiratory and/or heart ailments.

If you are feeling unwell at any time, please consult a doctor immediately.

Here are some ways that you can limit exposure:

- Stay indoors as far as possible
- Reduce physical exhaustion
- Drink more water than usual
- Cut down on coffee and alcohol
- Use N95 masks as appropriate, depending on (i) health condition, (ii) Pollutants Standards Index (PSI) level, (iii) physical exertion and (iv) time spent outdoors.

Thank you

Haze Advisory

24-hour PSI Readings: 201 to 300

Due to the current haze condition, the following haze precautionary measures will be taken for the safety of our guests:

Temporary closure & suspension of programs and activities in outdoor and non-air-conditioned facilities.

As the situation of the haze is volatile, please scan here for updates on our sport facilities closure.

We thank you for your kind understanding.
